

IN THE CLAIMS:

Please amend claim 1 as follows:

LISTING OF CURRENT CLAIMS

1. (Currently Amended) A ceiling-attached multimedia player, comprising:
a base fastened to an inner side of a car top having a bottom edge pivotally coupled with a flipping display device and a housing dock shaped for holding a flipping multimedia player, the housing dock being an indentation formed in the base, the indentation being located so that the flipping display device covers the flipping multimedia device when the flipping display device is in a stored position; wherein:

the display device has a display screen on an inner side visible to rear seat passengers of a car when pivoted outwards from the stored position to a viewing position; and

the flipping multimedia player is a flattop multimedia player connecting to the display device for playing multimedia programs.

2. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a DVD player.

3. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a VCD player.

4. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a CD player.

5. (Original) The ceiling-attached multimedia player of claim 1, wherein the flipping multimedia player is a blue light DVD player.

6. (Original) The ceiling-attached multimedia player of claim 1 further having a video input end to allow an external video player to broadcast video/audio information.

7. (Original) The ceiling-attached multimedia player of claim 1 further having a video output end to connect an external video player to output video/audio information.
